Community Members Are Experts **We need you!**

The staff at Ahms Tah Ow would like to increase the number of cultural activities at our school.

We warmly invite community members to share their particular skills or expertise with our students. It is a tremendous encouragement to our students and their learning when family and members of their community show their support.

You can share your skills by offering "mini-workshops" or presentations for students. These workshops could be one-time only or in a series of 3 or 4 one hour workshops. Workshop presenters would be paid for their time. We can accommodate small or large groups. We could also come to you, in the community.

We are open to ideas!

Some examples of cultural activities which could be offered:

Beading projects... Carving... Singing... Drum Making..
Cedar Weaving... Cedar Headbands... Cedar Bailers...
Treaty Negotiations... Guest Speakers... Constitution...
Cooking... Button Blankets... Sweat Lodge...

The sky is the limit! Well, almost. The small list above is suggestive only. **Your** skills and knowledge are what we are inviting **you** to share with Ahms Tah students and other community members.

Please contact the school at 604 483-9646 Ex. 232 if you require further information or would like to help out.
